

Dispatch Pro, provides ag retailers and enterprise farms with a super fast and flexible solution to tough dispatching tasks. Giving you control when you need to make last minute decisions.

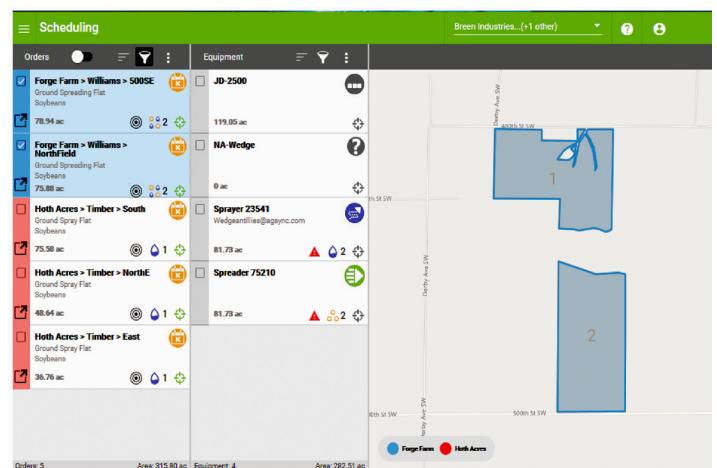

UNMATCHED SCHEDULING PLATFORM

We know having to manage multiple people, and pieces of equipment across many locations is difficult. Which is why Dispatch Pro was created specifically for you. To lessen or eliminate many of those burdens.

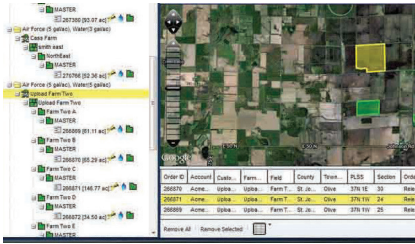

- Work Order Management
- Scheduling
- Asset / Application Monitor
- Reporting & Analytics
- Mobile Apps

DISPATCH PRO ADVANTAGE

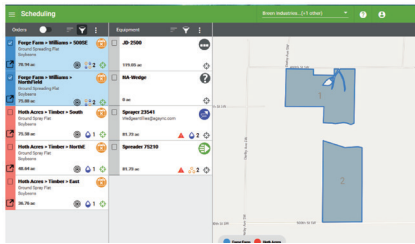

- View in-route, active and idle equipment status
- Sort orders for best application via interactive map
- Assign jobs with a click of the button
- Track work on map
- Dispatch across locations
- Know when assets are not working, reassign to where needed
- Work syncs immediately to Viper 4+ or the Field Ops app
- API integrations

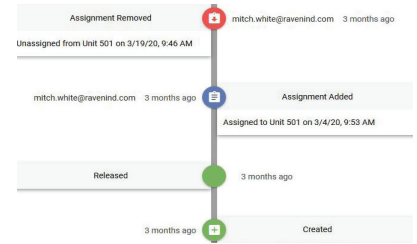

USING DISPATCH PRO WITH YOUR SLINGSHOT PORTFOLIO IS AS EASY AS 1-2-3.

- Manage customer, farm, field, products and orders in AgSync, or your api partner.
- Choose Dispatch Pro as status to send order to the scheduling module.

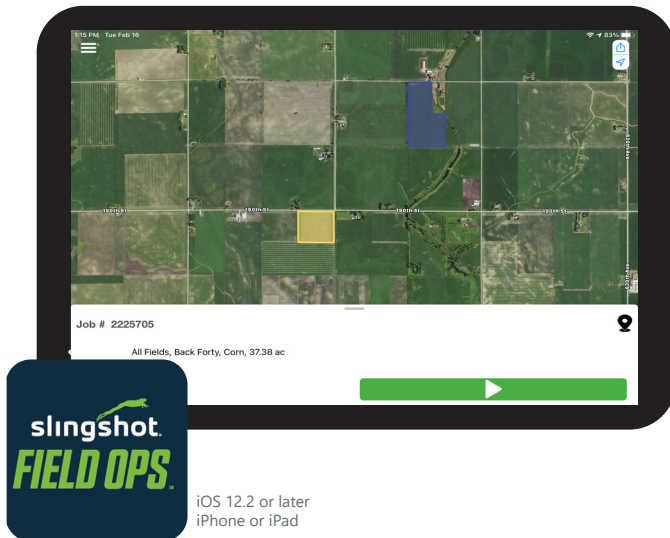

- Organize and arrange the fields on the interactive map, setting the sort order in which work is to be done.
- Simply drag and drop work unto a piece of equipment for instant assignment.
- Greater flexibility for moving work from one piece of equipment to another.

- Detailed work order history. Know who created, released and edited orders.
- Completion records instantly import from Viper4 or Field Ops app.
- Print and export reports.

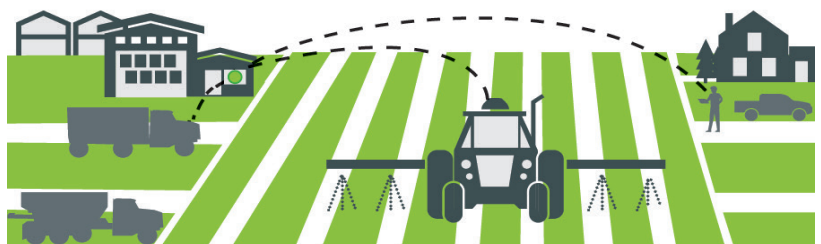

FIELD OPS™

RETRIEVE AND COMPLETE WORK ORDERS FROM ANYWHERE

- Jobs instantly load in assigned order to simplify the process.
- Filter work by equipment so you only see what you need to work on.
- Directions to field.
- Asset location returns to Dispatch Pro for monitoring work in progress.
- Easy start and stop application controls.
- Completion data instantly syncs back into Dispatch Pro for back office verification and billing.

Dispatch Pro is newest addition to the Slingshot platform. Enabling the industry's first and truly complete Connected Workflow
